- Renaissance Jewellery Ltd the Holding Company, In quarters prior to July 01, 2011 / previous years, on account of short period of processing and/or manufacturing, difficulty in identifying the stages of process, and the insignificant impact on valuation, work in process was classified as raw materials for the purpose of classification and valuation. With effect from July 01, 2011, on account of increased volumes and refinement in the method of identification of the stages of process, management has indentified work in progress and has also allocated variable and fixed overheads of Rs 1,105 lacs based on the stages of completion. Consequently, the closing inventory of work in progress was higher by Rs 1,105 lacs with equivalent impact on the profit for that quarter and six months period ended September 30, 2011. During the current quarter, in line with the above change based on the current level of inventory, overheads of Rs 500 lacs have been allocated on closing inventory of work in progress and accordingly, profit for the nine months period ended December 31, 2011 is higher by Rs 500 lacs and profit for quarter is lower by Rs 605 lacs.

Further on account of such change, management has also reclassfied inventory of raw material of Rs.21,696 lacs to work in progress as at period end September 30, 2011 and Rs 12,104 lacs as at end of the current quarter with corresponding impact in consumption of raw material of the quarter/period.
