

RENAISSANCE GLOBAL LTD.

☪ EMS Policy ☪

We at Renaissance Global Ltd. are dedicated to maintain and ensure a clean & sustainable environment. It is our obligation to keep up an adequate working climate and secure workspace & environmental elements for natural development in its operational activities.

- Conduct business in an environmentally responsible manner.
- Compliance with all applicable environmental laws, regulations and customer requirements
- The impact of our operations on the environment will be monitored and reviewed periodically to mitigate the norms of any statutory authority.
- Disposal procedures for waste generated will be clearly defined and practiced in line with standards that are set by law.
- Improvement of employee environmental awareness and performance through training.
- Efficient use of energy and natural resources to minimize waste generation through efforts that include recycling & prevention of pollution.
- Commitment to a continual improvement process in environmental management.
